

MOEIN SAMANI

Full-Stack Web Developer

ABOUT ME

I am an experienced full-stack developer with a specialization in the Backend and a proven track record in building scalable and robust web applications. I bring expertise in server-side development with NestJS, Docker, CI/CD pipelines, and database management. My core skills include designing efficient RESTful APIs, managing complex state with Redux Toolkit for Frontend, and delivering projects across industries such as e-commerce, healthcare, and finance. I am proficient in software design patterns and object-oriented programming, enabling me to create maintainable and scalable solutions. As a collaborative team player, I thrive in agile environments, consistently driving project success from concept to completion.
